

As Heard on News1130...

**Vancouver based stock newsletter ranked by
CBS MarketWatch as one of the 'Top 10' in North America**

CKWX News1130 INTERVIEW TRANSCRIPT: Broadcasted September 15, 2002

News1130: *A local independent stock analyst is getting some pretty impressive accolades south of the border. CBS MarketWatch has ranked the Linde Equity Report as one of the 'Top 10' best performing newsletters in North America. Teal Linde is the editor.*

Teal Linde: I've been researching and investing in stocks since 1995. I had a very good run throughout the late '90s like a lot of people did and I was inspired by my success to start publishing my own research. I started doing that in May 2000. Now that was the peak of the bull market, but since then I've still been able to achieve very decent returns and CBS MarketWatch has taken notice. They have been tracking me along with a lot of other newsletters in North America.

News1130: *He tells News1130 it's good to get the international recognition.*

Teal Linde: I started in May 2000 and I recommend one stock a month. I'm very selective. I found it very difficult in the beginning to even find one stock a month that I thought would be worth investing in. I thought that over 95% of them were overvalued. So based on one stock a month, I've recommended close to 30 stocks. The average holding period of each stock from the time I recommended it is about 8.6 months and the average return for each recommendation is 23%.

News1130: *And Linde says performance wise, that's not too bad considering the recent market volatility.*

Teal Linde: If you annualize that, it's over 30%. CBS MarketWatch published their rankings for the last 12 months. They did a post September 11 article. What they do is build portfolios on the buy and sell recommendation of newsletters and they had me pegged at a 21.6% return for the last 12 months.
